

From above: An office space designed by
Lisa Erdmann; Lisa Erdmann.

LISA ERDMANN

FOR 30 YEARS, Lisa Erdmann has been the creative energy behind her formidable design firm, Lisa Erdmann Interiors in Palm Beach. Her long list of successful projects can be found from Palm Beach to Miami, New York City, the Hamptons, Tuxedo Park, Aspen, and the Caribbean. Her works range in styles and inspiration accumulated throughout a lifelong love of travel. Lisa's travels have taken her throughout Europe, across Asia, on safari in Africa, shops of Morocco, and even a sailing adventure in Pacific Ocean. Each unique place is filled with inspiration in colors, tastes, sites,

textures, and architecture. These experiences allow Lisa to view design from multiple angles, be it the pragmatic to the whimsical.

Along with her world view, Lisa's firm, Lisa Erdmann Interiors, is built upon her strong belief in collaboration with her clients creating a combination of their dreams

and her team's creative design talents. She loves to incorporate beloved items, artwork and treasures from her clients lives into their homes. While each home presents its own unique character and opportunities, Lisa's diligence, and wealth of design experience, along with her teambuilding approach affords her clients an efficient and productive design process.

"The most rewarding part of each project is the installation. It is the culmination of the client's dream and my firm's vision and hard work."

Lisa's work has been widely published and she and her firm have lent their time and talents to the Kips Bay Palm Beach Show House and several Red Cross Show Houses. Additionally, Lisa is very active philanthropically and is a long-time board member of The Nicklaus Children's Health Care Foundation, serving on their Grants Committee.
